Automorphisms of Surfaces after Nielsen and Thurston (London Mathematical Society Student Texts)

Andrew J. Casson, Steven A. Bleiler

This book, which grew out of Steven Bleiler's lecture notes from a course given by Andrew Casson at the University of Texas, is designed to serve as an introduction to the applications of hyperbolic geometry to low dimensional topology. In particular it provides a concise exposition of the work of Nielsen and Thurston on the automorphisms of surfaces. The reader requires only an understanding of basic topology and linear algebra, while the early chapters on hyperbolic geometry and geometric structures on surfaces can profitably be read by anyone with a knowledge of standard Euclidean geometry desiring to learn more about other 'geometric structures'.

From reader reviews:

Jerry Linton:

This Automorphisms of Surfaces after Nielsen and Thurston (London Mathematical Society Student Texts) book is simply not ordinary book, you have after that it the world is in your hands. The benefit you receive by reading this book is actually information inside this book incredible fresh, you will get details which is getting deeper an individual read a lot of information you will get. This kind of Automorphisms of Surfaces after Nielsen and Thurston (London Mathematical Society Student Texts) without we know teach the one who reading through it become critical in considering and analyzing. Don't always be worry Automorphisms of Surfaces after Nielsen and Thurston (London Mathematical Society Student Texts) can bring once you are and not make your bag space or bookshelves' come to be full because you can have it inside your lovely laptop even cell phone. This Automorphisms of Surfaces after Nielsen and Thurston (London Mathematical Society Student Texts) having fine arrangement in word and also layout, so you will not feel uninterested in reading.

Vicky Moore:

Information is provisions for people to get better life, information nowadays can get by anyone with everywhere. The information can be a information or any news even an issue. What people must be consider when those information which is inside the former life are challenging to be find than now is taking seriously which one is appropriate to believe or which one typically the resource are convinced. If you receive the unstable resource then you have it as your main information it will have huge disadvantage for you. All of those possibilities will not happen inside you if you take Automorphisms of Surfaces after Nielsen and Thurston (London Mathematical Society Student Texts) as the daily resource information.

Raymond Guajardo:

The reserve untitled Automorphisms of Surfaces after Nielsen and Thurston (London Mathematical Society Student Texts) is the guide that recommended to you you just read. You can see the quality of the book content that will be shown to you actually. The language that article author use to explained their way of doing something is easily to understand. The article writer was did a lot of study when write the book, to ensure the information that they share to you personally is absolutely accurate. You also can get the e-book of Automorphisms of Surfaces after Nielsen and Thurston (London Mathematical Society Student Texts) from the publisher to make you a lot more enjoy free time.

Angie Blakney:

Is it an individual who having spare time subsequently spend it whole day by watching television programs or just resting on the bed? Do you need something totally new? This Automorphisms of Surfaces after Nielsen and Thurston (London Mathematical Society Student Texts) can be the answer, oh how comes? A book you know. You are therefore out of date, spending your spare time by reading in this fresh era is

common not a nerd activity. So what these publications have than the others?
