Tumor Neurosurgery (Springer Specialist Surgery Series) Anne J. Moore, David W. Newell

'Tumor Neurosurgery' provides information on the basic knowledge and clinical management required for optimal care of neurooncology patients. Providing an up-to-date synopsis of the field of tumor neurosurgery, the book covers the most common sites and tumor pathologies encountered by neurosurgeons. The chapters are organized under broad topics, including investigative studies, perioperative care and the role of newer techniques. The clinical management of CNS tumors in adults and children is described, including spinal tumors, both intradural and extradural. This book provides coverage of relevant topics in the field of tumor neurosurgery, for residents and registrars in training, and for recent graduates of training programs.
