Winter is the most deadly season in Temperance. And it's not just because of the fierce cold. Evil is stalking the backcountry of Yellowstone, killing wolves and leaving only their skins behind.

As the snow deepens, Geologist Petra Dee is staring her own death in the face, while former Hanged Man Gabriel struggles with his abrupt transition back to mortality. The ravens and the rest of the Hanged Men are gone, and there are no magical solutions to Petra's illness or Gabriel's longing for what he's lost...and what he stands to lose now.

Meanwhile, there's a new sheriff in town. Sheriff Owen Rutherford has inherited the Rutherford ranch and the remnants of the Alchemical Tree of Life. He's also a dangerously haunted man, and his investigation of Sal's death is leading him right to Gabriel.

It's up to Petra, her coyote sidekick Sig, and Gabriel to get ahead of both Owen and the unnatural being stalking them all – before the trail turns deathly cold.
