- * the social production of art
- * the sociology of the artist
- * museums and the social construction of high culture
- * sociology aesthetic form and the specificity of art.

With the addition of an introductory essay that contextualizes the readings within the traditions of sociology and art history, and draws fascinating parallels between the origins and development of these two disciplines, this book opens up a productive interdisciplinary dialogue between sociology and art history as well as providing a fascinating introduction to the subject.
