Essay from the year 2008 in the subject Women Studies / Gender Studies, grade: 1,7, Åbo Akademi University, language: English, abstract: In the beginning of the 20th century sexuality in Western culture was considered as a taboo and especially the church acted repressive towards sexual topics.. Since the 1960s the term “sexual revolution” described a cultural change in the western society towards a more liberal view of sexuality, monogamy and sexual relationships. Reasons for that are on the one hand the availability of new methods of birth-control like “The Pill” and the lack of fear of sexual diseases in the 1960s but on the other hand also a change of thoughts and believes which came up through the students movement of 1968 and its more promiscuous and hedonistic way of live (“Sex, Drugs & Rock'n Roll”), which still influences our sexual believes today.

To understand the consequences of this development I want to explain the term “sexualization of society”, which describes the constant (or growing) presence of sexuality in public, in social perception and consciousness of the people. It also refers to the focus or emphasis on sexuality within a broader context and viewing an object under the sexual point of view or in terms of sexuality. I want to analyze if a sexualization of society as an example in the case of “mainstreaming of pornography” really has taken place and in what way this is reflected in pornography and prostitution. Therefore I will also consider the changes in the public opinion towards pornography and I will compare it to prostitution and its role in our society.
