## **A Workbook on Planning for Urban Resilience in the Face of Disasters (World Bank Training Series)**

Federica Ranghieri, Fatima Shah

This Workbook offers a step-by-step guide for city officials in proactively planning for natural disasters and climate change impacts. It is based on learning from three cities in Vietnam - Ha Noi, Can Tho, and Dong Hoi – that developed Local Resilience Action Plans (LRAPs) containing a set of prioritized actions, related to both infrastructure as well as policy/ regulatory and socioeconomic actions. These LRAPs are based on vulnerability and risks assessments, a gaps analysis drawing on an inventory of planned investments and policy changes, and multi-stakeholder priority setting. The on-the-ground learning from these pilot cities in Vietnam has paved the way for cities in China, Indonesia, and the Philippines to embark on similar processes. This Workbook is a complement to the best-selling *Climate Resilient Cities: A Primer on Reducing Vulnerabilities to Disasters* (2009).
