Zeta and q-Zeta Functions and Associated Series and Integrals (Elsevier Insights) H. M. Srivastava, Junesang Choi

Zeta and q-Zeta Functions and Associated Series and Integrals is a thoroughly revised, enlarged and updated version of *Series Associated with the Zeta and Related Functions*. Many of the chapters and sections of the book have been significantly modified or rewritten, and a new chapter on the theory and applications of the basic (or q-) extensions of various special functions is included. This book will be invaluable because it covers not only detailed and systematic presentations of the theory and applications of the various methods and techniques used in dealing with many different classes of series and integrals associated with the Zeta and related functions, but stimulating historical accounts of a large number of problems and well-classified tables of series and integrals.

Detailed and systematic presentations of the theory and applications of the various methods and techniques used in dealing with many different classes of series and integrals associated with the Zeta and related functions

From reader reviews:

Mary Lee:

Do you have favorite book? Should you have, what is your favorite's book? Reserve is very important thing for us to understand everything in the world. Each reserve has different aim or goal; it means that book has different type. Some people really feel enjoy to spend their time for you to read a book. They are really reading whatever they take because their hobby is actually reading a book. Consider the person who don't like examining a book? Sometime, individual feel need book once they found difficult problem as well as exercise. Well, probably you will require this Zeta and q-Zeta Functions and Associated Series and Integrals (Elsevier Insights).

Regina Wingler:

Now a day folks who Living in the era just where everything reachable by connect with the internet and the resources included can be true or not need people to be aware of each info they get. How many people to be smart in receiving any information nowadays? Of course the answer is reading a book. Studying a book can help individuals out of this uncertainty Information mainly this Zeta and q-Zeta Functions and Associated Series and Integrals (Elsevier Insights) book since this book offers you rich facts and knowledge. Of course the information in this book hundred percent guarantees there is no doubt in it everybody knows.

Maxine Ford:

Zeta and q-Zeta Functions and Associated Series and Integrals (Elsevier Insights) can be one of your basic books that are good idea. Most of us recommend that straight away because this book has good vocabulary that may increase your knowledge in vocab, easy to understand, bit entertaining but nonetheless delivering the information. The author giving his/her effort to set every word into pleasure arrangement in writing Zeta and q-Zeta Functions and Associated Series and Integrals (Elsevier Insights) nevertheless doesn't forget the main place, giving the reader the hottest as well as based confirm resource facts that maybe you can be considered one of it. This great information could drawn you into completely new stage of crucial contemplating.

Bernice Smith:

This Zeta and q-Zeta Functions and Associated Series and Integrals (Elsevier Insights) is great book for you because the content and that is full of information for you who always deal with world and also have to make decision every minute. This particular book reveal it details accurately using great coordinate word or we can declare no rambling sentences inside it. So if you are read it hurriedly you can have whole data in it. Doesn't mean it only provides you with straight forward sentences but tough core information with wonderful delivering sentences. Having Zeta and q-Zeta Functions and Associated Series and Integrals (Elsevier Insights) in your hand like obtaining the world in your arm, information in it is not ridiculous one particular. We can say that no publication that offer you world within ten or fifteen tiny right but this book already do

that. So , this really is good reading book. Heya Mr. and Mrs. busy do you still doubt in which?
