UK health and social care are increasingly being asked to work together across traditional agency boundaries. Although this sounds easy in theory, doing it in practice is incredibly complicated and difficult. In many cases, moreover, current training programmes, research and textbooks are even more divided than front-line services, and practitioners and managers are often being given the task of making partnerships work without the necessary support. Against this background, the second edition of this bestselling book provides a concise 'warts and all' introduction to partnership and integration, summarising updated references to current policy and research, setting out useful frameworks and approaches, and helping policy makers and practitioners to work more effectively together, with greater emphasis on 'integrated care'. Written by the leading authors in the field and fully updated since the Health and Social Care Act (2012), the book is also fully evidence- and research-based, whilst still being accessible and applicable to everyday practice. Aimed at students, practitioners, managers and policy makers in health and social care, and including new reflective exercises and boxed examples, this is still the one book that everyone in the field should read.
