## **Tsunami Alert** Oakley Brooks

**ABOUT THE BOOK:** In this decade of devastating tsunamis comes an illuminating, gripping story about a city that could be next. Padang, Indonesia, for centuries a bustling port town and a crossroads of East and West, wakes up to the realization in 2004 that it has built itself right into a future tsunami's path. Oakley Brooks follows a colorful cast of characters, from top officials to barefoot villagers, and visiting scientists to cavalier surfers, as they struggle to figure out how live in this suddenly precarious place. *Tsunami Alert* is a parable about geologic reckoning in the 21st century — the way we blindly grow in dangerous places and the courageous, curious and downright strange ways we go on living in the face of risk. **About the Author** Oakley Brooks is an American journalist whose writing has appeared in newspapers and magazines around the world, including the *New York Times*, the *Los Angeles Times* and the *International Herald Tribune*. In 2009, he was writer-in-residence at the Earth Observatory of Singapore at Nanyang Technological University, among scientists researching earthquakes, volcanoes, tsunamis and climate change. He lives in Portland, Oregon, on the eastern edge of the Pacific "Ring of Fire".
