**Metodología de la investigación (Filosofía de la Religión nº 4) (Spanish Edition)** Armando Asti Vera

El propósito de esta obra es ofrecer un manual de metodología general. Su finalidad primordial es la exposición y el análisis crítico de la significación y los límites de los métodos y las técnicas de investigación. En segundo término, aspira a contribuir a iniciar a los jóvenes en el trabajo científico reflexivo, ordenado y crítico, familiarizándolos, a la vez, con las técnicas de la labor intelectual y de la preparación de los informes científicos. Se ha tenido especial cuidado en eludir problemas filosóficos que nos alejaran de los objetivos propuestos; sólo se ha introducido la reflexión filosófica y el examen metacientífico cuando así lo exigía la naturaleza misma de las cuestiones o la necesidad de meditar sobre el alcance de los métodos y las técnicas considerados. Ésta, por tanto, no es una obra de epistemología ni de filosofía de las ciencias, sino de metodología científica, y en ese nivel debe ser juzgada. La segunda y la tercera partes del libro han sido escritas pensando en los que se inician en la investigación y, muy especialmente, en los estudiantes universitarios que deben cumplir tareas escolares que, sin confundirse con la indagación científica en sentido estricto, están muy próximas a ella desde el punto de vista metodológico: redacción de informes, relatos escritos sobre capítulos de un libro, preparación de monografías y de tesis.
