Processing (O'Reillys Basics) (German Edition)

Erik Bartmann

Processing (O'Reillys Basics) (German Edition) Erik Bartmann

Processing ist eine auf Grafik, Simulation und Animation spezialisierte Programmiersprache. Es ist eine vereinfachte Version der komplexen Programmiersprache Java.

Processing wurde entwickelt, um Schnell und effektiv mit relativ wenig Aufwand kreativ zu arbeiten und ohne viel Drumherum zu sichtbaren Ergebnissen zu gelangen. Benutzeraktionen über Maus oder Tastatur sorgen für Interaktivität. Processing richtet sich damit vorwiegend an Gestalter, Künstler und Programmierneinsteiger. Es steht unter Open-Source-Lizenz und viele Programmierer stellen ihre Programme, Erweiterungen und Bibliotheken ebenfalls frei zur Verfügung.

Um Processing zu lernen, braucht man keine Programmierkenntnisse. Processing erlaubt schon nach kurzer Einarbeitung die Erstellung eigener interaktiver Anwendungen, die entweder auf einer Webseite eingebunden oder als ausführbares Programm unter Windows, Linux oder Mac OS X laufen können.

Auf höchst unterhaltsame und keineswegs IT-lastige Weise vermittelt der Autor Erik Bartmann die Faszination, die von Processing ausgeht. Angereichert mit zahlreichen erläuternden und witzigen Comics werden die Grundkenntnisse der Programmierung vermittelt. Dabei wird von Beginn an darauf geachtet, dass das Wissen sofort eingesetzt wird, um eigenständige Programme zu erstellen.

Wenn's dann um die künstlerisch anspruchsvolle Gestaltung von Text, Bildern, Videos und Sound geht, wird Processing zu einem Genuss, auch und gerade für den Einsteiger.
