The Last Mile in Ending Extreme Poverty

The Last Mile in Ending Extreme Poverty

Viewed from a global scale, steady progress has been made in reducing extreme poverty—defined by the \$1.25-a-day poverty line—over the past three decades. This success has sparked renewed enthusiasm about the possibility of eradicating extreme poverty within a generation. However, progress is expected to become more difficult, and slower, over time. This book will examine three central changes that need to be overcome in traveling the last mile: breaking cycles of conflict, supporting inclusive growth, and managing shocks and risks. By uncovering new evidence and identifying new ideas and solutions for spurring peace, jobs, and resilience in poor countries, *The Last Mile in Ending Extreme Poverty* will outline an agenda to inform poverty reduction strategies for governments, donors, charities, and foundations around the world.

Contents

Part I: Peace: Breaking the Cycle of Conflict

External finance for state and peace building, Marcus Manuel and Alistair McKechnie, Overseas Development Institute

Reforming international cooperation to improve the sustainability of peace, Bruce Jones, Brookings and New York University
