Interpreting Schelling: Critical Essays

Interpreting Schelling: Critical Essays

This book is the first collection of essays on Schelling in English that systematically explores the historical development of his philosophy. It addresses all four periods of Schelling's thought: his Transcendental Philosophy and Philosophy of Nature, his System of Identity [Identitätsphilosophie], his System of Freedom, and his Positive Philosophy. The essays examine the constellation of philosophical ideas that motivated the formation of Schelling's thought, as well as those later ones for which his philosophy laid the foundation. They therefore relate Schelling's philosophy to a broad range of systematic issues that are of importance to us today: metaphysics, epistemology, aesthetics, ethics, our modern conceptions of individual autonomy, philosophy of history, philosophy of religion, political philosophy, and theology. The result is a new interpretation of Schelling's place in the history of German Idealism as an inventive and productive thinker.
