**"Financial Contagion: The Viral Threat to the Wealth of Nations covers a lot of territory. It is, of course, terribly important to analyze case histories to discover potential triggers, mechanisms of transmission, and viable ways to contain the damage of financial contagion. The problem is, as these articles amply demonstrate, that there's always a new virus or a mutation of a former one lurking in some corner of the financial world. We don't know what it is or where it is. And, even if we had some inkling, there's almost never enough time to develop a financial flu shot." --SeekingAlpha.com**
