## **Kierkegaard's Concept of Faith (Kierkegaard as a Christian Thinker)** Merold Westphal

In this book renowned philosopher Merold Westphal unpacks the writings of nineteenth-century thinker Søren Kierkegaard on biblical, Christian faith and its relation to reason.

Across five books — *Fear and Trembling*, *Philosophical Fragments*, *Concluding Unscientific Postscript*, *Sickness Unto Death*, and *Practice in Christianity* — and three pseudonyms, Kierkegaard sought to articulate a biblical concept of faith by approaching it from a variety of perspectives in relation to one another. Westphal offers a careful textual reading of these major discussions to present an overarching analysis of Kierkegaard's conception of the true meaning of biblical faith.

Though Kierkegaard presents a complex picture of faith through his pseudonyms, Westphal argues that his perspective is a faithful and illuminating one, making claims that are important for philosophy of religion, for theology, and most of all for Christian life as it might be lived by faithful people.
