A First Course in Fuzzy and Neural Control

Hung T. Nguyen, Nadipuram R. Prasad, Carol L. Walker, Elbert A. Walker

A First Course in Fuzzy and Neural Control Hung T. Nguyen, Nadipuram R. Prasad, Carol L. Walker, Elbert A. Walker

Although the use of fuzzy control methods has grown nearly to the level of classical control, the true understanding of fuzzy control lags seriously behind. Moreover, most engineers are well versed in either traditional control or in fuzzy control-rarely both. Each has applications for which it is better suited, but without a good understanding of both, engineers cannot make a sound determination of which technique to use for a given situation.

A First Course in Fuzzy and Neural Control is designed to build the foundation needed to make those decisions. It begins with an introduction to standard control theory, then makes a smooth transition to complex problems that require innovative fuzzy, neural, and fuzzy-neural techniques. For each method, the authors clearly answer the questions: What is this new control method? Why is it needed? How is it implemented? Real-world examples, exercises, and ideas for student projects reinforce the concepts presented.

Developed from lecture notes for a highly successful course titled The Fundamentals of Soft Computing, the text is written in the same reader-friendly style as the authors' popular A First Course in Fuzzy Logic text. A First Course in Fuzzy and Neural Control requires only a basic background in mathematics and engineering and does not overwhelm students with unnecessary material but serves to motivate them toward more advanced studies.

From reader reviews:

Lee Parkin:

Here thing why this particular A First Course in Fuzzy and Neural Control are different and trusted to be yours. First of all examining a book is good however it depends in the content from it which is the content is as yummy as food or not. A First Course in Fuzzy and Neural Control giving you information deeper as different ways, you can find any book out there but there is no guide that similar with A First Course in Fuzzy and Neural Control. It gives you thrill reading through journey, its open up your eyes about the thing this happened in the world which is probably can be happened around you. You can easily bring everywhere like in playground, café, or even in your way home by train. If you are having difficulties in bringing the paper book maybe the form of A First Course in Fuzzy and Neural Control in e-book can be your substitute.

Felix Smith:

The experience that you get from A First Course in Fuzzy and Neural Control may be the more deep you excavating the information that hide inside the words the more you get interested in reading it. It does not mean that this book is hard to comprehend but A First Course in Fuzzy and Neural Control giving you buzz feeling of reading. The article writer conveys their point in certain way that can be understood by means of anyone who read that because the author of this guide is well-known enough. This particular book also makes your personal vocabulary increase well. Making it easy to understand then can go together with you, both in printed or e-book style are available. We suggest you for having that A First Course in Fuzzy and Neural Control instantly.

Christie Rich:

A First Course in Fuzzy and Neural Control can be one of your basic books that are good idea. Many of us recommend that straight away because this publication has good vocabulary that may increase your knowledge in vocab, easy to understand, bit entertaining but delivering the information. The copy writer giving his/her effort that will put every word into satisfaction arrangement in writing A First Course in Fuzzy and Neural Control but doesn't forget the main point, giving the reader the hottest and based confirm resource information that maybe you can be among it. This great information can easily drawn you into brand new stage of crucial imagining.

Jerri Jackson:

Reading a publication make you to get more knowledge as a result. You can take knowledge and information coming from a book. Book is composed or printed or outlined from each source that will filled update of news. Within this modern era like now, many ways to get information are available for an individual. From media social including newspaper, magazines, science guide, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Are you hip to spend your spare time to spread out your book? Or just seeking the A First Course in Fuzzy and Neural Control when you necessary it?
